*“Have a good time. Enjoy life. Life’s too short to get bogged down or be discouraged. You have to keep moving. You have to keep going. Put one foot in front of the other, smile, and just keep on rolling.”*

—Kobe Bryant

*“When something bad happens you have three choices. You can either let it define you, let it destroy you, or you can let it strengthen you.”*

— Theodor Seuss Geisel

# River Oak shareholders in March

*“Do we have a capital raise soon? Finally some sales.”*

*“I look forward to our next capital raise.”*

*“Daniel, I definitely would like to participate [in the capital raise]. When can we have a call?”*

*“Is now a really good time for you to get some extra liquidity?”*

# Q1-2020 Results

- **River Oak Investment return -11.0%**

OMXS30 -15.7%

S&P 500 -20.0%

MSCI World -21.1%

\*all including dividends

- **Our results since inception Feb 7, 2017 – March 31, 2020:**

Book value per share +35.4% vs OMXS30 incl. dividends +8.0%

Hidden asset: Prepaid salary costs worth 4.5% due to our High Water Mark setup

# River Oak Investment return positive for the year per mid-April

- 2020 YTD positive >> 2019FY Investment return +61.7%
- Offense wins games. Defense wins championships.
- Remember this?

# River Oak #1 goal: Don't lose money

## What does this mean in practice?

- If I think an investment is too risky, I don't care what the upside is
- We are *always* conservatively invested
- Business model, Balance sheet & Valuation  
... in that order

# Key success factors

- **#1 Goal: “Don’t lose money” mindset makes us well prepared**

Normally no extra points for this – only good sleep

- **Demand for our companies’ services stable (so far)**

Hard to think of a larger demand shock

Bias towards business infrastructure/essentials

Our companies will likely grow quite substantially in 2020

- **#2 Goal: Earn 15% average annual return on capital over time**

Too mellow given track record?

We don’t want to revise goals in every unexpected tough period.

- **Goals designed to encourage calm behavior in all situations**

# Key success factors

- **Private company & Great shareholder base** ★

Peter Lynch Fidelity Magellan fund open to public 1981-1990:  
Returns 22.5% per year, Average Investor in fund ca. 7% per year

Investors withdrew capital after periods of poor performance and added after periods of good performance.

- **High concentration in few holdings**
- **Minor portfolio adjustments before pandemic became mainstream focus**
- **Invested available liquidity in late March at good prices**

In no way based on pandemic prediction – but at River Oak we like good prices!

*“You don’t need to know a man’s height to conclude that he is tall.”*
